

Selecting Setting Mode

- The K3NV in RUN mode will go into setting mode if the Mode Key is pressed for 1 s minimum.
- The K3NV in setting mode will go into RUN mode if the Escape Key is pressed.

- The menu in each mode changes whenever the Mode Key is pressed.
- If the Mode Key is pressed for more than one second while a menu is displayed, a parameter will be displayed.
- The parameter changes whenever the Mode Key is pressed.
- If the Shift Key is pressed while a parameter is displayed, the parameter will be ready to change.
- Press the Up Key to change parameters.
- The digit of a set value is selected with the Shift Key and changed with the Up Key.
- The PROG indicator is lit while a menu or parameter is displayed.
- The PROG indicator flashes during a set value change.

Note If the input range is changed, all the other parameters will be set to default values. Therefore, set the input range first.
